

JINDAL

PANTHER™

TMT REBARS

WHAT MAKES JINDAL PANTHER™ TMT REBARS SUPERIOR

EXCELLENT BONDING WITH CEMENT

Due to uniform and parallel rib pattern engraved through computer controlled notch making machines.

GREATER RESISTANCE TO CORROSION & FIRE

Due to highly controlled chemistry coupled with state-of-the-art production technology.

MORE RESISTANT TO EARTHQUAKES

Due to better UTS/YS ratio and higher percentage elongation.

HIGH STRENGTH & DUCTILITY

Due to tempered Martensite Ring and Ferrite Pearlite core using self tempering and controlled cooling process.

SUPERIOR WELDABILITY

Due to low levels of carbon and carbon equivalent.

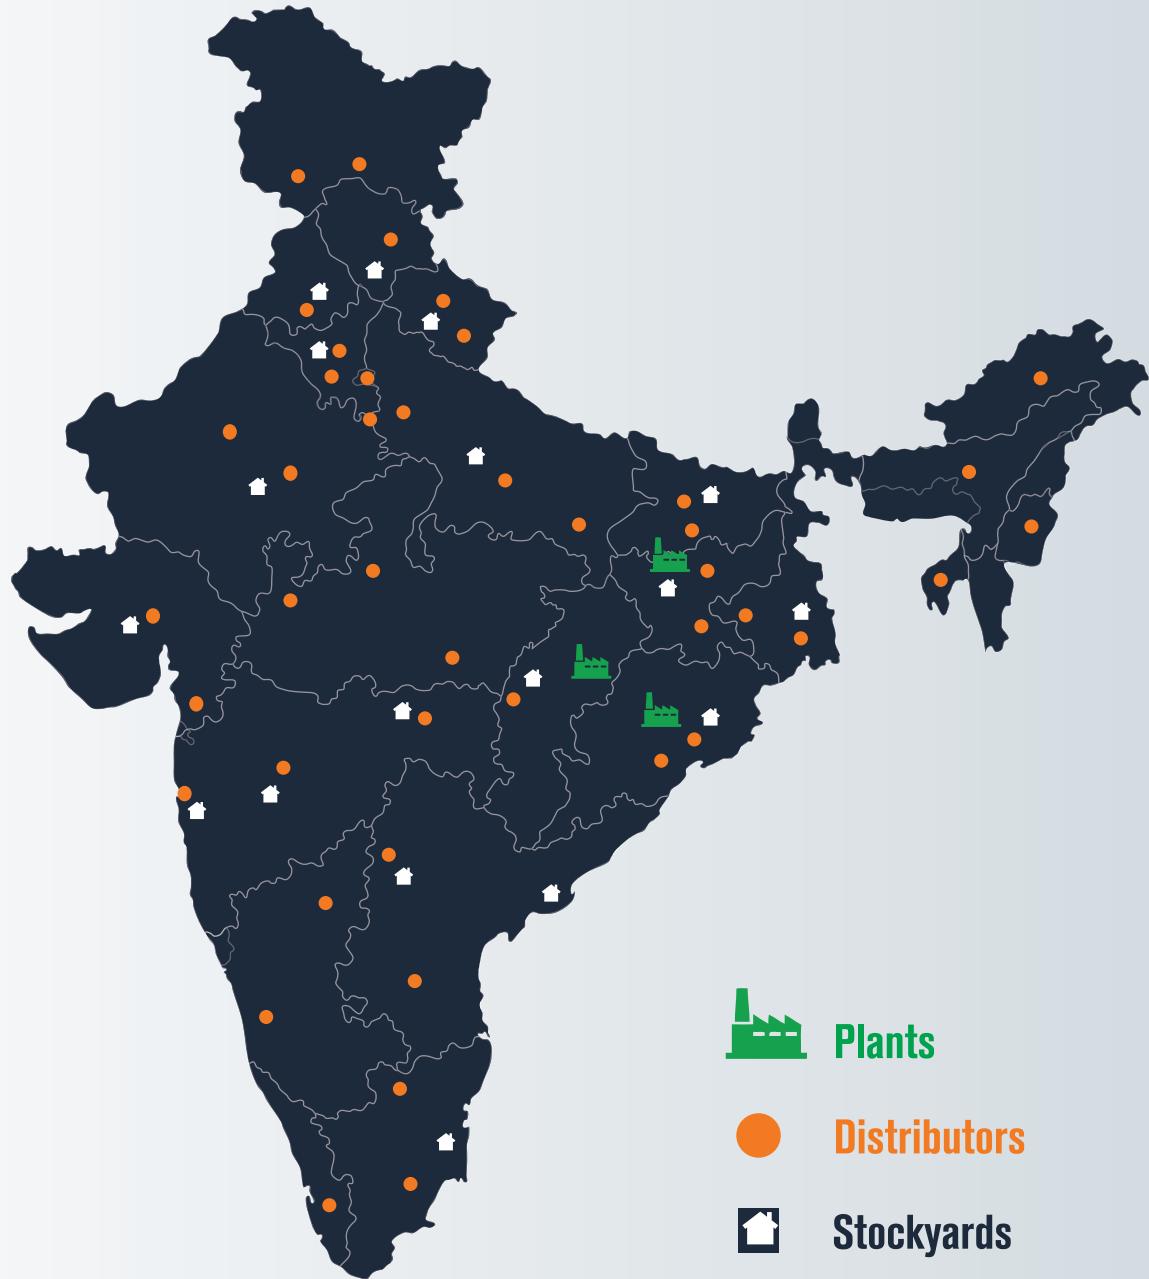

PANTHER™, A SYMBOL OF TRUST.

A PRODUCT OF

JINDAL STEEL & POWER LTD.
